### *September Work & Chip Day*

The September work day on the 16th will take place along the roadways with branch trimming as the major task. Please bring your trimming tools and meet us at 9am at the corner of Nancy Ashworth and Drovers Lane. Mike Surret will come the following week to chip the branches we trim and stack that day. If you have any trimming to do on your own property, be sure to have branches out by the road in front of your home no later than Monday, Sept. 18th for Mike and his crew to chip. Branches must be 4" in diameter or less.

The McClungs vacationed in New Mexico and Colorado exploring Mesa Verde and Chaco Canyon.

Chuck and Kimber enjoyed northern Italy including Venice, the Dolomites, and Lake Como. They completed a five-hour hike at Monte Seceda described as “truly one of the most jaw-droppingly stunning hikes in the Dolomites!”

The Farrell family took in a Braves game this summer and hiked Grandfather Mountain with the Warrens.

The Learys planned a week on Fripp Island, SC, but Hurricane Idalia had other plans. The first three days were beautiful!

This sweet family was seen relaxing in Fairview this summer! Here they are enjoying the Froelich’s back yard.
